“The GT Radial truck tire casing has proven to be very retreadable and has consistently had an RAR (return at receipt) rate below the shop average.

We believe we are offering our customers a good value priced product with a durable quality casing that will retread one or more times. I would place GT Radial among the group of casing brands we consider to be most dependable.”

-- Jim Osborne, plant manager of McGriff Industries

McGriff Tire has been a dealer of GT Radial truck tires for over five years and has processed thousands of GT Radial casings through their Bandag retread plants.

Founded in 1946, McGriff Tire is headquartered in Cullman, AL. Operating 12 full-service commercial truck tire centers and two Bandag plants, the company offers a full line of tires and services for the trucking industry. They have consistently ranked among the Top 5 truck tire retreaders in the country.

service station attendant, Shell Oil decided to open a service station in Cullman.

Knowing they would need a competent person to manage the new station, they decided to observe Bert and his colleagues during business hours to see if any of them were qualified to manage the new business. After two days of careful observation from across the street, the men from Shell Oil chose Bert.

At that time, Bert had no idea that "someone was watching" or that his actions and professional conduct would within days provide him with the opportunity to manage a new business which would later become known as McGriff Tire Company, Inc.
